

E Emergency procedures

On arriving at the Camp please familiarise yourself and the people in your group with the location of first aid kits and exits in the building.

Emergency procedures are posted in the main dining room, beside the phone in the foyer and each staff dormitory.

A copy of the relevant emergency procedures are also in the Camp 'User's Guide' found in each leader's room.

Please note: Urban Camp staff members do not sleep on site.

Fire fighting equipment

Extinguishers, fire hoses and smoke detectors are vital and are located around the site. These should not be tampered with or removed. Negligent behaviour will be at your cost.

First aid

The Camp first aid kits are located in the hall, office, kitchen and camp vans.

It is recommended that each group bring their own first aid kit to suit their specific group's needs.

It is required that at least one adult in each group should have a current First Aid Certificate.

Camp staff are qualified in Emergency First Aid Level 2 and Senior First Aid, and can provide first aid kits on site as backup.

Response for emergency in campsite building

- Notify office staff immediately about an emergency observed by you or other campers.

Fire emergency procedure

1. In case of a fire, alert your leader and/or nearby persons. A warning signal and announcement will be broadcast throughout the Camp when a fire has been detected.
2. Walk to the nearest EXIT and leave the Camp building.
3. Assemble on the lawn area opposite the URBAN CAMP sign at the front of the camp.
4. Phone the FIRE BRIGADE from a SAFE PLACE as soon as possible.

A. Teachers or leaders must conduct a ROLL CALL and notify emergency workers as to the outcome.

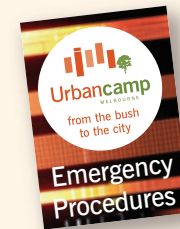

B. PLEASE consider your own SAFETY before any action is taken.

Injury emergency procedure

- Leaders and supervisors of activity give first aid and send another adult to phone for an ambulance.

Note: Displayed near each phone is the exact description of the Camp location and a list of emergency service numbers.

- Remove other campers from the area and look after them until the situation is resolved.

Emergency procedures can be downloaded from the website:
